

Lab01- PLGrid infrastructure quick start

6.03.2026

Registering in PLGrid

- Documentation and how tos:
 - <https://guide.plgrid.pl/>
 - <https://plgrid.pl/>
- Helpdesk is available here, please create a ticket if you encounter any issues:
 - <https://helpdesk.plgrid.pl/>
- If you already have an PLGrid account, please skip the registration phase. If you have an active affiliation (note the expiry date!), skip affiliation creation.
- How to become a PLGrid user?
 - In order to become a user you need to be an employee of a Polish scientific institution or be a subordinate person holding a mentioned position.
 - Registration form: <https://portal.plgrid.pl>
 - Please use e-mail address from one of the following domains: student.agh.edu.pl or icslab.agh.edu.pl.
- After registration:
 - Login to the PLGrid portal.
 - Add affiliation as a subordinate of scientific unit employee:
 - Supervisor information:
 - Włodzimierz Funika
 - email: funika at agh.edu.pl
 - OPI no.: 86092
 - Scientific organization:
 - Akademia Górniczo-Hutnicza im. Stanisława Staszica w Krakowie
 - Wydział Informatyki
 - Instytut Informatyki
 - Organization web page: <http://informatyka.agh.edu.pl>
 - Wait for your account to be processed and accepted, this should take up to one work day.
 - Apply for membership in the “Large Scale Computing” team (plgglscclass).
 - Each person will be invited to the team by an email invitation sent to your @student.agh.edu.pl address, please accept it by clicking the proper link from an email. If you didn't receive an email please contact me.
 - This group can use a dedicated grant for computations on PLGrid infrastructure.
 - You can check what resources are available in the portal.
 - Apply for the following services:
 - Ares cluster
 - Athena cluster
 - Access to JupyterHub

After the approval check if services are working. Do a ssh to Ares, what is the output of “hpc-grants” command? It might take up to one hour, after your application is accepted, for the system to update the information about grants.

- Summary of above steps:
 - Registration
 - Affiliation
 - Apply for team membership
 - Apply for services
